

IGSHPA 2.0

IGSHPA 2.0 - Update

Updated December 8, 2014

November was a busy month for the current advisory council and the staff. The advisory council conversed via email to nominate members in each of the six sectors (Distributors, Manufacturers, Architects/Engineers/Designers, Utilities, HVAC Dealer-Contractors, and Geothermal Exchange) for the new IGSHPA Board of Directors. All nominees were contacted to ensure they would serve on the board of directors if elected. Nominees who accepted the nomination have been placed on a secure online ballot and a link to the ballot has been emailed to all voting members with the members own login and password.

What's next?

Voting will remain open until January 5. Once member voting closes, the current advisory council will meet to elect the at-large Board of Director members. The new Board of Directors will be announced January 15.
