

IGSHPA 2.0

IGSHPA 2.0 Bylaws

Updated August 12, 2014

The draft bylaws written by Glenn Tecker and his team were received by IGSHPA staff. IGSHPA has sent the bylaws to the members of the design team for a thorough review before the adoption of the new bylaws. The design team has until August 22 to review and comment on the bylaws. The bylaws were drafted based off of the summit design document the design team previously approved.

What's next?

Once the bylaws have been agreed upon by the design team, the bylaws will be sent to the advisory council. Adoption of the new bylaws will follow Chapter 10 Section 1 of the current IGSHPA Constitution and Bylaws. This section states, "The articles of the bylaws may be amended by a two-thirds vote in the advisory council meeting at the yearly meeting. Any proposed amendment will be sent by electronic mail or other medium to the council chairperson at least thirty (30) days prior to the meeting and then distributed to all council members at least two weeks, (14) days, in advance for their review and consideration."

"The advisory council shall have two weeks to make suggested changes and/or additions to proposed amendments. Following incorporation of suggested revisions, the proposed amendments will again be disseminated. The advisory council may vote to amend the bylaws by written ballot, electronic ballot, or table said amendments until the yearly meeting."
